

Like Steps in a Dance

Anchor & Braille

Sing to me every night and I'll make you the happiest man alive
So now you know why I still play guitar
Just so locked into a battle, both want to win and lose
She's made threats that I hope she sees through

Like steps, steps
Like steps in a dance
Like steps, steps
Like steps in a dance

Talk to me then whisper gently what you're doing to me
I can't seem to take this blindfold off
Hear me out with just your hands, tell me you're intrigued
Please use future tense when talking to me
