

# Raped Paradise

## Ancient Ceremony

From damnation sacred gardens  
My journey shall begin  
Riding through the moongate  
Allied with those fallen from grace

Hate and darkened virtue  
Are the seeds I plant  
On the fields of blinded lambs

Like a child  
Veiled in white and red  
They are tempted to be drenched in sin  
Tempted to drown in lust

Behold the pale horse  
I am sitting on  
Know my name is death

Sun dresses black to attend this funeral

Raped paradise - nomen illi mors  
Raped in paradise are the shepherd's fools

Their slaughtered souls  
Are to the moon like a bloody kiss  
As lunar serenade  
I compose the soundtarck of decay

Strings straight from hell  
And drums of doom  
Act as fatal orchestra

Raped paradise - serpents deceit me  
Raped in paradise are the shepherd's fools

Through the ashes of their cremation  
My words do roar  
May the sheep be sent among us wolves  
So that seas of blood run from our mouths

In cruel and fire  
Eden's desecration  
Was held on my altar
