

From Beyond The Grave

Ancient Rites

[Bonus Track]

My body is blown

My soul is worthless

This keeping in love with you

Forever and above all

From beyond the grave

Just as I promise you who ever was alive

Death will take away

My heart is haunting for the flesh

Forever is it you

From beyond the grave

You will haunt it now

All I need is to follow the death

From beyond the grave

My heart is looking for the death

From beyond the grave

It shows me to go to hell
