

# Comatose The World Amnesia Planet Dead

...and Oceans

I love this world  
And these people, the beautiful ones  
I love this world  
And your goddamn sun

I love this world  
And the family of fragile dreams  
I love this world  
When the world goes to sleep

[Chorus:]

You're so pretty - planet dead  
You're so pretty - planet dead  
You're so pretty - planet dead  
You're so pretty - planet dead

I love this world  
Empty with its black holes  
I love this world  
And the ones without a soul

I love this world  
With a bullet for each one  
I love this world  
When tomorrow never comes

[Chorus]
