

# Opaque The Morning I Woke Up Dead Today Is The Day

...and Oceans

[Chorus:]

Today is the day - the world is going away

Today is the day - we're all going away

When will we dream away; end this life in dismay

See the last sad rays, as flowers we wither away

[Chorus]

When will time eat us away; our dead faces portray

Turn all of us cold and grey, the years will sweep us away

[Chorus]
