

Black Generation

And One

She's got the power
let the story run
leading the game
controlling yellow press for fun
because a scandal light
she's got to move a light

He is the owner of a typing machine
doom days, one week, bodies on his screen
he's mister scandal light
he's got to move a light

What if he find an issue greater...
...an issue greater than yours

And now we keep on paralyzed
we're living in our tiny worldwide
we are the shame of the nation
we are the black generation

And if you care if they are banging black or white
you're jealous cause nobody sleeps at your side tonight
the only scandal light
in not to move a light

And now you wonder why you don't have a clou
about the soldiers marching down your street to spreading
the new
just keep on paralyzed
it works worldwide

What if he find an issue greater...
...an issue greater than yours
