Friends In Heaven

It's like it seems - someday holy hands and holy talks they'll creep - so i understand

that hypnotize tonight
hit and miss - like fragile lies
they'll creep - so i understand

strange and clean i had the information of misery in times of change i've seen friends in heaven

that hypnotize tonight
hit and miss - like fragile lies
in me - so i understand

strange and clean i had the information of misery in times of change i've seen friends in heaven
