

Goodbye Germany

And One

This nation is fading
Sensations quite moving
Slowly this war is holy

Some people just pointed
No future it makes you wonder
And so I'm dreaming my few days away

It's time to leave the ones we love
Say "Goodbye, Germany!"
Let's celebrate the union
Over and over again

Why don't we grow together
Say «Goodbye, Germany!»

That feeling like stranger
In my town it makes you wonder
If we are building it up from the start

It's time to leave the ones we love
Say «Goodbye, Germany!»
Let's celebrate the union
Over and over again

Why don't we grow together
Say «Goodbye, Germany!»
