

## Only One

## And One

Nothing would be better  
When you turn away  
Give me a second chance  
So let me stay  
The smile in your face  
Tells it for sure  
I want to be with you  
No matter rich or poor

No matter rich or poor  
No matter rich or poor

What's the reason, why you don't talk to me?  
The tenderness you giving me makes me free  
I've got that feeling of golden times  
But I see everthing what glitters isn't gold

No matter rich or poor  
No matter rich or poor

You're the only one in my dreams  
You're the only one so hear my screams  
All the things seem to blend  
When I touch your skin and hold your hand

Nothing would be better  
When you turn away  
Give me a second chance  
So let me stay  
The smile in your face  
Tells it for sure  
I want to be with you  
No matter rich or poor

No matter rich or poor  
No matter rich or poor  
No matter rich or poor  
No matter rich or poor
