

Only One

And One

Nothing would be better
When you turn away
Give me a second chance
So let me stay
The smile in your face
Tells it for sure
I want to be with you
No matter rich or poor

No matter rich or poor
No matter rich or poor

What's the reason, why you don't talk to me?
The tenderness you giving me makes me free
I've got that feeling of golden times
But I see everthing what glitters isn't gold

No matter rich or poor
No matter rich or poor

You're the only one in my dreams
You're the only one so hear my screams
All the things seem to blend
When I touch your skin and hold your hand

Nothing would be better
When you turn away
Give me a second chance
So let me stay
The smile in your face
Tells it for sure
I want to be with you
No matter rich or poor

No matter rich or poor
No matter rich or poor
No matter rich or poor
No matter rich or poor
