## **Only One**

Nothing would be better When you turn away Give me a second chance So let me stay The smile in your face Tells it for sure I want to be with you No matter rich or poor

No matter rich or poor No matter rich or poor

What's the reason, why you don't talk to me? The tenderness you giving me makes me free I´ve got that feeling of golden times But I see everthing what glitters isn´t gold

No matter rich or poor No matter rich or poor

You're the only one in my dreams You're the only one so hear my screams All the things seem to blend When I touch your skin and hold your hand

Nothing would be better When you turn away Give me a second chance So let me stay The smile in your face Tells it for sure I want to be with you No matter rich or poor

No matter rich or poor No matter rich or poor No matter rich or poor No matter rich or poor
