Recover you

And One

Come on sweetie do you remember me I was the boy from the band And One Come to me let's have some dirty fun A nasty piece of work

Follow me I'm the only one
I am up cause I am down
Come to me don't listen to the clown
You nasty piece of work

I will recover you
I will recover you
Be here, be mine, give me a sign
I will recover you

Trust in me I'll give you what you need Smash you up and crash you down Come to me watch out for innocence You nasty piece of work
