

Save The Hate

And One

Taken... I don't know why
That strange little girl pulling my tide
My heroes are coming alive
'Cause right on my grave she's going to drag me down

Waiting: her dangerous style
She's happy to see that people believe in me

It's another goodbye, take a record but don't say no
It's so easy to save the hate it's another new day
Why do you believe the man you deceive?
Save the hate it's another day
Don't bring me down it's much too late

Waiting: her dangerous style
She's happy to see that people believe in me

It's another goodbye, take a record but don't say no
It's so easy to save the hate it's another new day
Why do you believe the man you deceive?
Save the hate it's another day
Don't bring me down it's much too late...

I woke up without a halo
It doesn't matter if you stay or you die

(It's another goodbye)

Why do you believe the man you deceive?
Save the hate it's another day
Don't bring me down it's much too late
(It's another goodbye)
It's another day
Don't bring me down it's much too late
(It's another goodbye)
It's another day
Don't bring me down it's much too late
