

The Aim Is In Your Head

And One

This is the war that you searched for
These guys are running like a red
You are the fact of the desert
Load your gun and watch you run
The unknown speaks ridiculous
With a death pack on his back
This is the way the enemy looks at the war, motherfucker

Reload, hold on, the aim is in your head now
Reload, hold on, the aim is in your head
Reload, hold on, the aim is in your head now

Time is over now
Time is over now

Reload, hold on, the aim is in your head now
Reload, hold on, the aim is in your head now
Reload, hold on, the aim is in your head now

Reload, hold on, the aim is in your head now
Reload, hold on, the aim is in your head now
Reload, hold on, the aim is in your head now
