

The End Of Your Life

And One

When its hard to believe
You will die cause you feel alive
When you're cleaning your knife
The end of your life

When your heart stops to beat
Coming down on your feet and smile
There's no time to survive
The end of your life

To the edge of the floor
Crouching like the old man before
You will drink while you drive
The end of your life

Getting rid of your needs
Getting rid of all thoughts you had
You will never arrive
The end of your life

Life is not what it seems
And you're not the one who decides
It's your own evil wife
The end of your life
