

## Under The Stars

### And Then I Turned Seven

Watching the stars at night, there's nothing that I'd rather do  
The moon is the only light, that I can use to look at you  
So let's make this memory last, of this night that we've come t  
o claim ours  
I promise I'll never forget, such a perfect night under the sta  
rs

The air is warm with comfort, the air is warm with taste  
There's nothing we have to look out for, so let's make the most  
of this place  
So let's make this memory last, of this night that we've come t  
o claim ours  
I promise I'll never forget, such a perfect night under the sta  
rs

I promise you

So let's make this memory last, of this night that we've come t  
o claim ours  
I promise I'll never forget, such a perfect night under the sta  
rs

I promise you
