

Much Too Much

Andain

Break it down to the sun
How you've given me up
Lay it down to the sea
How you've given me much too much
Sing your song to the sky
As I'm walking you by
There'll be time to divide
What's been breaking at us

Break it down to the sun
How you've given me up
Lay it down to the sea
How you've given me much too much
Sing your song to the sky
As I'm walking you by
There'll be time to divide
What's been breaking at us

Break it down to the sun
How you've given me up
Lay it down to the sea
How you've given me much too much
Sing your song to the sky
As I'm walking you by
There'll be time to divide
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
What's been breaking at us
