

Taken Away

Andain

If it's true that what's been here
can last as mine and only
The I will live a thousand years
I wouldn't want to leave you lonely

Maybe I wast taken
Maybe I was taken away

If I knew the days would pass
With all the world before you
The stars would by me home at last
I'd shine them from the skies above you

This love is all i want just to know you've got it
This love is all i want just to know you've got it
This love is all i want just to know you've got it
