

## Could I Leave Forever

Andi Deris

Winter has come  
And the snow at the window is  
Grey as my mind  
I'd want to just leave it all behind  
Something is out there I need to find  
Dark is the night  
And the cold is my enemy  
I want to hide  
But I ain't got no time to flee  
Could I leave forever and a day  
I would look for a bay  
And would there be forever lasting May  
I wouldn't change a day  
Life is a bitch  
Too expensive to be your friend  
I wanna fly  
Far away where the winter ends  
Lay down at the beach  
And build castles with sand  
Could I leave forever and a day  
I would look for a bay  
And would there be forever lasting May  
I wouldn't change a day
