

# Don't Listen to the Radio

Andi Deris

Go lock your door, rather stay inside  
But when they come there is nowhere to hide  
Not far away, everywhere on our earth  
They brought the fight to us, haven't you heard

This could be our last day standing  
This could be the final ending

Don't listen to the radio  
It's just a game, it's just a show  
No battle ships, no alien foe  
Don't listen to the radio

Got laser guns ripping buildings apart  
There's nothing out here they will skip to bombard  
All our troops have been scattered or killed  
God help us all, now we pay for our guilt

This will be our last day standing  
This could be the final ending

Don't listen to the radio  
It's just a game, it's just a show  
No battle ships, no alien foe  
Don't listen to the radio
