

# I Sing Myself Away

Andi Deris

I wake up in the night  
There's still no morning light  
So I pour a Whisky  
My guitar is with me

I sing my self away

I smoke my cigar  
I don't care in my own bar  
Have another Whisky  
Got my Beauty with me

I sing myself away

I hear calling from the beach  
There voices-I know each  
Shout to take my six string  
Come to sruf, eat and sing  
Turn night into day

I sing myself away
