

They Wait

Andi Deris

There's a modern religion
Proclaiming the pain
Promising immortal wonders
They steal His power
Disparage His name
Turn the Holy Words to thunder
We don't know where they go from here
But in the dark they wait
They are fallen believers
Betrayed in their faith
By the church war from the true God
They turn old secrets
No nowadays lies
Pushing us to praise the new lord
We don't know where they go from here
But in the dark they wait
They wait
They abuse your illusions
They know 'bout your dreams
Take advantage of your frustrations
They spread their fever
Quiet and mean
Recruiting trusting new retrievers
We don't know where they go from here
But in the dark they wait
They wait
In the dark they wait
They wait
One day they're coming
Theirs is the time
One day they're coming
They wait
They wait
They wait
In the dark they wait
