Andragonia

Proving my hate inside of a apocalyptic chaos  
Facing the evil that doesn't show his face  
Evil power  
Keeping hopes  
Faking reasons  
Hidding on the shadows of god  
Through eternal lies seeking salvation  
Forbidden roads meeting the hug of pain  
A lake of tears where history ends  
Eternal fantasy, eternal tragedy  
Welcome the land where sun is born without life  
Creating hate blood sprouting on the promise land  
The gold lights dim the justices eyes  
You keep millions of blind souls seeking for the light  
Creating your shadows creating your kingdom murder of  
dawn  
Selling us the cure  
Through eternal lies seeking salvation  
Forbidden roads meeting the hug of pain  
A lake of tears where history ends  
Eternal fantasy, eternal tragedy  
"Behind the sun is my place, oh, my freedom, my  
salvation"  
It's terrify,  
The evil minded spreads it's seeds inside our hearts  
We're on our knees to the grace of false rescuer  
Pay the price or die  
Through the ashes, through eternal life - shadowmaker  
Through the ashes, through eternal life - shadowmaker  
Through the ashes, through eternal life - shadowmaker  
Through the ashes, through eternal life - shadowmaker  
Through eternal lies seeking salvation  
Forbidden roads meeting the hug of pain  
Surrender when life is fading away  
Eternal fantasy, eternal tragedy!
