

## Your Love (Once Upon a Time in the West)

Andrea Bocelli

I woke and you were there  
beside me in the night.  
You touched me and calmed my fear,  
turned darkness to light,  
to light.

I woke and saw you there  
beside me as before  
My heart leapt to find you near  
to feel you close once more  
To feel your love once more.

Your strength has made me strong  
Though life tore us apart  
and now when the night seems long  
your love shines in my heart...  
Your love shines in my heart.
