

# Lies

Andrew Allen

Is there time for just one story  
I promise you won't be sorry,  
For making the time  
This one starts just like it ought to  
The leading character is you  
And this interesting life

[Chorus:]

Oh you you, and true true, something about  
'I'm gonna have to lie to you'  
Oh you you, I see through  
Don't want no more lies

Chapter five, excuses  
The past you've come from  
But it's sounding like boredom  
That was clouding your way  
Chapter 10 is just like ice cream  
Fifty two flavors of your dream  
All of them melting away

[Chorus:]

Oh you you, and true true, something about  
'I'm gonna have to lie to you'  
Oh you you, I see through  
Don't want no more lies  
A getting to you

Lies, Lies, Lies  
Lies, Lies, Lies  
Lies, Lies, Lies, Lies

[Chorus: x2]

Oh you you, and true true, something about  
'I'm gonna have to lie to you'  
Oh you you, I see through  
Don't want no more lies  
A getting to you

Lies, Lies, Lies
