Play with Fire

Andrew Allen

I remember when it changed I remember when he looked at you that way You said you didn't know his name You lit a fire you got caught up in the flames

Now we sit outside You say it happened just one time And I don't wanna have this fight But then you look me in the eye

And you ask me, "are we cool?" I reply, "we're magnificient" You stepped on my heart, don't pretend that you're innocent Don't know what happened to you and I We could've been cool But you had to go and play with fire, with fire, with fire

yeah I'm pretty sure how this will end you'll make a scene and wonder why we cant be friends I cant believe you never learned You play with fire, there's a chance of getting burned

And we're still outside You swear it was a lonely night That it didn't mean a thing that's nice But you still look me in the eye

And you ask me, "are we cool?" I reply, "we're magnificient" You stepped on my heart, don't pretend that you're innocent Don't know what happened to you and I We could've been cool But you had to go and play with fire, with fire, with fire why'd you had to go and play with fire, with fire, with fire

oohh oohh

I remember when it changed Now its never gonna be the same

And you ask me, "are we cool?" I reply, "we're magnificient" You stepped on my heart, don't pretend that you're innocent Don't know what happened to you and I We could've been cool But you had to go and play with fire, with fire, with fire why'd you had to go and play with fire, with fire, with fire

why'd you had to go and play with fire why'd you had to go and play with fire why'd you had to go and play with fire why'd you had to go and play with fire

And you ask me, "are we cool?" I reply, "we're magnificient" You stepped on my heart, don't pretend that you're innocent Don't know what happened to you and I We could've been cool
