

# Open Your Eyes

Andrew Belle

Open your eyes now  
Open your eyes now  
It's time to see  
If you can reach me

Open your eyes now  
Open your eyes now  
It's time to leave  
It's time to leave me

Open your eyes now  
Open your eyes now  
It's time to see  
If you still believe me

Open your life now  
Open your life now  
I'll try to be  
All that you need me  
To be

She'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleed

Open your eyes now  
Open your eyes now  
Try to speak  
Like you can see me

Open your eyes now  
Open your eyes now  
I'll try to be

Almost everything  
You need me to be

She'll be a star now  
I will follow her lead  
She'll be a scar now  
I will still let her bleed  
All over me

She'll be a star now  
She'll be a scar now

She'll be a star now  
She'll be a scar now

She'll be a star now  
She'll be a scar now

She'll be a star now  
She'll be a scar now

She'll be a star now

She'll be a scar now

She'll be a star now

She'll be a scar now

I will let her bleed

All over me

All over me
