

# Pieces

Andrew Belle

You and me  
Got ourselves a problem  
I can see this  
Better than I solve em

I believed  
I found a way around it  
I will leave  
This better than I found it

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces

History's a letter made of scarlet  
Victories look better when you've called it  
Misery's the moment when I lost you  
It's pleasure in a costume  
It's more than what it cost you

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces

All of your pieces  
All of your pieces  
All of your pieces

All of your pieces  
All of your pieces  
All of your pieces

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces

There's too much smoke to see it  
There's too much broke to feel this  
I love you, I love you  
And all of your pieces
