

Bells And Whistles

Andrew Jackson Jihad

I have often wondered if a pregnant woman is decapitated
Will the baby survive? Will the baby survive?
And I have also wondered if that baby lives his life
What kind of life will that baby lead
And will the baby ever be happy?
His heart will be bloated and swollen
Just like his soul
Too big to fit in his body

And I don't think that I can take it
And I don't think that you can take it
And I know that he sure as hell can't take it
So we all go
So we all go
So we all go 'WOAH!'
