Bells And Whistles

Andrew Jackson Jihad

I have often wondered if a pregnant woman is decapitated Will the baby survive? Will the baby survive? And I have also wondered if that baby lives his life What kind of life will that baby lead And will the baby ever be happy? His heart will be bloated and swollen Just like his soul Too big to fit in his body

And I don't think that I can take it And I don't think that you can take it And I know that he sure as hell can't take it So we all go So we all go 'WOAH!'
