

Miracles

Andrew Rayel

Pencil with a shadows will move our deserted hearts together,
Make way for a new tomorrow
Head out of the city
We'll leave before the people say
We merely made it

We can be miracles
We can be the ones
It's all that I can say
Every time I close my eyes
We can be miracles
We can be the ones
We can be miracles
We can be the ones

We can be miracles
We can be the ones

In my head there's a castle
We live like a king and queen together
We're not part of the lonely nation
As we burst into colour
We laugh at what the people say
Because we made it

We can be miracles
We can be the ones
It's all that I can say
Every time I close my eyes
We can be miracles
We can be the ones
We can be miracles
We can be the ones

We can be miracles
We can be the ones
We can be miracles
We can be the ones
