

# Don't Ever Stop the Noise

Andrew W.K.

Do you really want to go down now?  
Do you really want to know where I've been when I go out?  
Can you understand what I'm feeling?  
Do you understand what it means, man?

When you hear the sound  
Feels just like a pleasure  
And when you feel the sound and you know  
You're coming for the sound don't ever stop the pleasure  
Remember what it's like coming down

So don't stop making the noise  
That's what we said, we said!

Don't ever stop the noise  
We can never stop making that noise  
Try to forget and they try to destroy  
But they can never stop, no never stop,  
The noise!

You don't know the sound when it feels bad  
And you lost what you knew so you took what they had  
Now you try to take it from others  
But try to mess with us and you'll suffer,  
Brother

When you hear the sound it feels just like a pleasure  
And when you feel the sound and you know  
You're coming for the sound don't ever stop the pleasure  
Remember what it's like coming down

So don't stop making the noise  
That's what we said, we said!

Don't ever stop the noise  
We can never stop making that noise  
Try to forget and they try to destroy  
But they can never stop, no never stop,  
The noise!
