

# Really in Love

Andrew W.K.

I... I am alike  
A lot like you  
Oh, like you

I do what I want  
And I want you  
Oh, want you

I learned all that i need to know  
To understand I love you so  
You get me, I get you, we get us

I can't explain it anymore  
I'm not too young to know for sure  
You get me, I get you, we get us

I didn't know what I was  
Didn't know what i wanted from love  
But now I know that I'm right  
Even if you won't have me, I don't care.

Because I'm  
Really in love  
Really in love  
I am falling really in love

Really in love  
Really in love  
I am falling really in love

In love  
When I'm saying your name  
In love  
Know it's not the same  
In love  
I'm down on my knees  
Please don't go

You... you live alone  
And I do too  
I really really really really want you

You've got no things you need to say  
The love I have won't go away  
You get me, I get you, we get us

I didn't know what I was  
Didn't know what I wanted from love  
But now I know that I'm right  
Even if you won't have me, I'll keep trying

Cause I'm  
Really in love  
Really in love  
I am falling really in love

Really in love

Really in love  
I have fallen really in love

In love  
When you're saying my name  
In love  
Know it's not the same  
In love  
I'm down on my knees  
Please, please, please
