

# The End of Our Lives

Andrew W.K.

Had the power on full  
And a reason to run  
Learned a little bit slow  
But it's better than none

Learned a little bit slow  
But at least we had fun

Looking out on the lot  
Driving over the dance  
Riding up to the top  
Bringing lunch in advance

Riding up to the top  
Bringing all that i can

If you only do good  
And you figure it out  
If I do what I should  
If I do it all now

Don't be waiting for luck  
Find a way to do more  
Are we doing this?  
What are we doing this for?  
Because we can...

Before the end of our lives  
The end of our lives  
The end of our lives  
Before the end of our lives, oh

There were days that I stole  
But I also got robbed  
So I made a mission my goal  
And a vision my job

Made a mission my goal  
But the vision got lost

If you only do good  
And you figure it out  
If I do what I should  
If I do it all now

Don't be waiting for luck  
Find a way to do more  
Are we doing this?  
What are we doing this for?

To love the times we have  
To like what makes us sad  
To live when others die  
To lose and say goodbye  
To last until our moment comes

But it isn't over

You know it isn't over  
You know it isn't over  
You know it isn't over  
You know it isn't done

Before the end of our lives  
The end of our lives  
The end of our lives  
Before the end of our lives, oh

Just because this life ain't easy  
Doesn't make it bad

It isn't over  
It can't be over  
Be glad.
