

# Lovelight In Your Eyes

Andru Donalds

Everything I saw before you  
It had no name  
I was like a lonely wolf in this world  
Until you came

And I had the feeling that my heart was without soul  
And I had the feeling that I'm loosing my control

I'm dreaming 'bout the future  
And the lovelight in your eyes  
My feelings were emotions  
But after night I realize  
That something is happening  
And it was a change in our life

I need you, your devotion  
And the lovelight in your eyes  
It gives me so much power  
And I'll never survive

My love...

Every time you are around me  
I don't need this world  
'cause you are my litany to heaven  
And you are my soul

And I can remember times my heart was going low  
And I can remember times I was loosing my control

I'm dreaming 'bout the future  
And the lovelight in your eyes  
You gave me all your loving  
I wish you always by my side

Yeah...

'cause you are my sunshine  
And your smile is giving me life

I need you, your devotion  
And the lovelight in your eyes  
It gives me so much power  
And I'll never survive

My love...

I'm dreaming 'bout the future  
And the lovelight in your eyes  
My feelings were emotions  
But after night I realize  
That something is happening  
And it was a change in our life

I need you, your devotion  
And the lovelight in your eyes  
It gives me so much power

And I'll never survive

My love...

I'm dreaming, dreaming, dreaming of the lovelight  
Dreaming, dreaming, dreaming of the lovelight  
In your eyes

Oh yes...
