

# Magic

Andy Davis

I don't have a hat with a brim  
and I look funny with a cane  
Eleven times out of ten  
I slim danicng in the rain  
Yes I do, yeah  
Even though my Sinatra isn't quite  
up to par, I'll try to woe you  
Like a movie in black and white  
tonight I'm singing to you  
We should be in love  
it could magic, it could be all this and more, and we should be  
in love, would you think about it, girl think about it  
And if I hear the news that some other dog's sniffin around, I  
might rattle the  
screws and personally show him to the  
pound, yes I would, yeah  
When it gets down to it, I hear background music when I see you  
open up for a minute, girl, try to see things from my view  
We should be in love  
it could magic, it could be all this and more, and we should be  
in love, would you think about it, girl think about it  
And I'm no Cassanova, but I'm an honest man, and honestly, if y  
ou asked me  
We should be in love  
it could be magic, it could be all this and more, we should be  
in love, would  
you think about it, girl think about it
