

Desire

Andy Gibb

Ah..... Ah.....

We may be big or small or black or white , eternally
And black and white is you and me in a special light
We may be young or old or in between, but this much I know
Together we can learn to grow
In a world that's ever turning it's back on you
If you give it all away,
make it mine, ine, ine, ine, mine
You are desire, ev'rything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light

These are the golden years we get to live
we lead the way, tomorrow we can start today
in a special light
Love could be good or bad or in between
but this much I learn
Baby, you and I can learn
In a world that's rearranging it's reality
If you give it all away
make it mine, ine, ine, ine, mine
You are desire, ev'rything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light
Ah...

And it's nice to light a fire
when it's cold outside
If you give it all away
make it mine, ine, ine, ine, mine
You are desire, ev'rything you need
I give you right or wrong
And you are the woman that I
base my whole existence on
And when I get to you my
desire is glowing in your light
