

# Starlight

Andy Gibb

Starlight, summer nights  
Don't leave me here alone to die  
Someone, somewhere cried

Oh Starlight, oh in my eyes  
Too far away to see the lights  
Drifters, drifting by

Now you've come back again  
And I ain't over it yet  
Please won't you walk with me  
Talk with me  
Starlight, yeah

Starlight, oh winter nights  
The snow has come and love has gone  
Now I'm feeling cold  
Yeah, yeah, yeah, yeah

Starlight, oh in my eyes  
Too far away to see the lights  
And I'm growing so old

Now you've come back again  
And I ain't over it yet  
Please won't you walk with me  
Talk with me  
Starlight

Now you've come back again  
And I ain't over it yet  
Please won't you walk with me  
Talk with me  
Starlight
