

# Grow

Andy Grammer

Good and grown, Lord knows I still ain't got it figured out yet  
Maybe 30 more years, I'll know the answer to it all  
Told myself I'd be like Mike, six rings on my fingers  
And I'd be sipping on something somewhere, escaping from it all

I work hard (Damn right), I get bored (Sometimes)  
You hit big (All night), still want more  
We ain't made to have it made  
So what I'm trying to say, what I'm trying to say  
(What I'm trying to say)

Is you gotta grow  
Love yourself and be kind, water your soul  
Celebrate, find your light  
It don't matter who you are, where you're going, you're not old  
We all know, yeah, we all know  
Gotta grow

Hearts all break, you're gonna break  
Hearts just learn when it happens  
When you plant your seeds, be careful reaping what you sewed  
Don't feel lost in the weeds, don't count your medals, stay humble  
And if you're gonna live fast, strap up, not everything is gold

I work hard (Damn right), I get bored (Sometimes)  
You hit big (All night), still want more  
We ain't made to have it made  
So what I'm trying to say, what I'm trying to say  
(What I'm trying to say)

Is you gotta grow  
Love yourself and be kind, water your soul  
Celebrate, find your light  
It don't matter who you are, where you're going, you're not old  
We all know, yeah, we all know  
Gotta grow

Whoa, Lord knows I still ain't got it figured out yet  
Ain't got it figured out yet, no

I work hard (Damn right), I get bored (Sometimes)  
You hit big (All night), still want more  
We ain't made to have it made  
So what I'm trying to say, what I'm trying to say  
(What I'm trying to say)

Is you gotta grow  
Love yourself and be kind, water your soul  
Celebrate, find your light  
It don't matter who you are, where you're going, you're not old  
We all know, yeah, we all know

Is you gotta grow  
Love yourself and be kind, water your soul  
Celebrate, find your light  
It don't matter who you are, where you're going, you're not old  
We all know, yeah, we all know  
Gotta grow, gotta grow, gotta grow
