

We Could Be Amazing

Andy Grammer

Dust off your heart and take it for a spin
I know it's been a while since love has been
Why don't you come outside
My arms are open wide
And I'll be here until you realize
Realize

Cause I'll be standing on your doorstep
Lie hotter than the sunset
Just take your sweet time babe
I'll let you sleep

Cause the love that I'm holdin'
Will still be here in the morning
I'm just sittin' here hoping
You'll come down to me

We could be amazing
You know you're gonna have to trust again
So throw on your shades and stop your worryin'
I got your heart, your back
So don't stress out on that
Us being here is not an accident
Accident

Cause I'll be standing on your doorstep
Lie hotter than the sunset
Just take your sweet time babe
I'll let you sleep

Cause the love that I'm holdin'
Will still be here in the morning
I'm just sittin' here hoping
You'll come down to me

We could be amazing
You've done something right
To keep me up all night
I could wait forever in your smile
I will not give in
You will love again
Open up your heart and say you'll try
Say you'll try

Cause I'll be standing on your doorstep
Lie hotter than the sunset
Just take your sweet time babe...
Cause I'll be standing on your doorstep
Lie hotter than the sunset
Just take your sweet time babe
I'll let you sleep

Cause the love that I'm holdin'
Will still be here in the morning
I'm just sittin' here hoping
You'll come down to me

We could be amazing
