

Careful Where You Kiss Me

Andy Griggs

Standin' at the mirror
Rinsin' off my razor
Wish I was still in bed
You're sneakin' up behind me
With nothin' but a towel on
You start breathin' down my neck

If you don't wanna spend the rest of this day
Lyin' in the dark and drivin' each other crazy
Careful where you kiss me

I love your sweet good mornin' baby hugs
But you know how your soft lips tear me up
Careful where you kiss me

You know every button
You know how to push 'em
And which ones turn me on
You put on my spot
Oh now baby don't stop
'cause girl I'm not that strong

I don't know how far you want this to go
But baby I'd just might lose control
Careful where you kiss me

I love your sweet good mornin' baby hugs
But you know how your soft lips tear me up

I love your sweet good mornin' baby hugs
But you know how your soft lips tear me up
Careful where you kiss me

Oh, careful where you kiss me
Careful where you kiss me
