Careful Where You Kiss Me

Andy Griggs

Standin' at the mirror Rinsin' off my razor Wish I was still in bed You're sneakin' up behind me With nothin' but a towel on You start breathin' down my neck

If you don't wanna spend the rest of this day Lyin' in the dark and drivin' each other crazy Careful where you kiss me

I love your sweet good mornin' baby hugs But you know how your soft lips tear me up Careful where you kiss me

You know every button You know how to push 'em And which ones turn me on You put on my spot Oh now baby don't stop 'cause girl I'm not that strong

I don't know how far you want this to go But baby I'd just might lose control Careful where you kiss me

I love your sweet good mornin' baby hugs But you know how your soft lips tear me up

I love your sweet good mornin' baby hugs But you know how your soft lips tear me up Careful where you kiss me

Oh, careful where you kiss me Careful where you kiss me
