

Custom Made

Andy Griggs

She says I'm a piece of work
And I make her laugh
She's got answers for
Anything I could ask
We fit together inside and out
She knows where I'm going
'Fore I turn around

No there ain't another like her
And I can't believe
That her soul and mine were
Meant to be
She flew in first class
Straight from heaven above
I gotta say, she's just like custom made
For me to love

Yeah, custom made
For me to love

When I put my arms around her
We just fit
She tells me she ain't never
Felt nothin' like this

She's that one in a million
We're two of a kind
I was born to be hers
She was made to be mine

No there ain't another like her
And I can't believe
That her soul and mine were
Meant to be
She flew in first class
Straight from heaven above
I gotta say, she's just like custom made
For me to love

Yeah, she's that one in a million
We're two of a kind
I was born to be hers
She was made to be mine

No there ain't another like her
And I can't believe
That her soul and mine were
Meant to be
She flew in first class
Straight from heaven above
I gotta say
I gotta say
She's custom made, yeah
Custom made
For me to love
Custom made
For me to love

Custom Made
For me to love
I gotta say she's custom made
