

# Let There Be Light

Andy Mineo

Got it good, got it good, did it done it, got it good  
Got it good, got it good, did it done it, got it good

We livin' in a dark world, how they gonna know  
If we don't put His glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light

I was in the dark, like the basement  
My heart used to love sin, then He changed it  
L-look what grace did, couldn't live without her  
Got no strength on my own, yeah I'm livin' solar powered  
Gettin' bright lit, this ain't no light switch  
I can't turn it on and off, Lord come ignite this  
I wanna be that flame in the dark where no light is  
While I'm in this frame, I show them who the Christ is  
When they see my deed's deed, I'm just being me  
I hope that they seeing You, every time they seeing me  
Treatin' others the same way that I would want them treatin' me  
Yeah we say it all the time, but that ain't done so easily  
So Jesus give me Your heart, mine is deceitful  
Then give me Your eyes, I wanna see people  
Same way that You see 'em, 'cause You all that they need  
It's like I'm Peter, though I'm fallin'  
You still callin' me to feed 'em

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light

I took a trip back to the 'Cuse, I saw my old friend  
Ran into my boy Ox, man it had me broken 'cause  
He was been doing things that I know I had taught him  
Back when I was in sin, now I know the world's watchin'  
You're given hands, feet, tongue, eyes in the like  
To show the world what we really prize is the Christ  
So take that Romans 12: 1 apply it to your life  
Let your light shine, your body's a living sacrifice

This is worship, with you on them verses  
The light in you could be darkness  
So are you certain, I pray Father search in  
Show me what competes for your throne  
On the seat of my heart, so I leave that joint alone  
All I know that is I'm prone, to wander and to roam  
So put fire in these bones, by Your Spirit make me strong  
If we like that we on, it's time to make Him known  
We illuminate the dark 'till the day He coming home

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show

So let there be light, let there be light,  
Let there be light, let there be light

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light

I was made to light it up, city on a hilltop  
And I know the only way so hit me when you feel lost  
Yeah, so put your shades on, you know lower your frames  
'Cause when His glory shine, you gon' lower your brain  
Higher than smokin' Mary Jane on an aeroplane  
His name's great, that's why Crae is livin' for Jesus mayne  
Much love to the folks in the church  
Lighting up the world while they're puttin' in work  
Even when it hurt, man we can't stop now  
Something caved in when the cave caved out  
But we can't lose what we never did earn  
Walk with the Son so my lights gon' burn  
Never giving up and I'm never gon' turn  
Glowing in the dark 'till the Lord return  
Yeah, Genesis 1: 3 on mind homie  
So let there be light, I'm tryna shine homie

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light

We living in a dark world, how they gonna know  
If we don't put his glory on display and let it show  
So let there be light, let there be light,  
Let there be light, let there be light
