

In Town

Andy Shauf

Float on water sons and daughter
Years are on their way
Health and sickness all a dying day

Dark and sung like things that don't quite make me want to stay

I will be back in town in seven days if your around
To smile and wave and expect what wont be found
I'll kiss you if you let me anyway

Float on water sons and daughter
Tears are on their way
From all the things we wish we wouldn't say

Dark and sung like things that don't quite make me want to say
The things I knew before I went away

Like I will be back in town in seven days if your around
To smile and wave and expect what wont be found
I'll kiss you if you let me anyways

Oh my darker days
Oh my darker days
