

## Another Lonely Song

Andy Williams

Time  
Won't ease my memory  
It's killing me now  
And Lord how I need him here  
Just to feel him near  
And hear him breathing  
Still  
The night goes on and on  
Another lonely song I'm singing  
Lord don't think bad of me  
Don't get mad at me you know I'm weak  
And it couldn't cause a whole lot of harm  
To be in somebody's arms  
Cause she's in his  
I know she is  
I know she is  
But God I love him  
And though  
I shouldn't give a damn  
That's the way I am now  
And Lord  
Guess I'll stay this way  
I can't play this way  
Just because I'm lonely  
Still  
The night goes on and on  
Another lonely song I'm singing  
Lord don't look down on me  
Don't frown on me  
Let's just keep talking  
Another lonely song I'm singing
