Don't You Believe It

Andy Williams

If you should hear That someone new Has eased the pain Of losing you

Don't you believe it Not for a moment Don't you believe it Because it isn't true

Those angry words
That made us part
Put out the flame
That's in my heart

Don't you believe it Not for a moment Don't you believe it Because it isn't true

I haven't changed I still love you And it will always be

I only hope and I pray each night You'll feel the Same about me

So if you hear Some false alarms Like you're not welcome In my arms

Don't you believe it Not for a moment Don't you believe it Because it isn't true

Oh, how I still love you
