

Summer Love

Andy Williams

Who will be your summer love
Like I was last summer
Sharing every moment of
Things we did last summer

Who will be satisfied
Just to be by your side
Who will kiss you, hold you tight
Two silver silhouettes
In the summer moonlight

Will you walk along the beach
Like we did last summer
Counting stars way out of reach
Like we did last summer

Will you tell your heart, beware
This is just a summer affair
Or will you fall in love for keeps
Like I did last summer
