## **Younger Than Springtime**

## **Andy Williams**

Younger than springtime are you Softer than starlight are you Warmer than winds of June Are the gentle lips you gave me

Gayer than laughter are you
Sweeter than music are you
Sunlight and moon beans
Heaven and earth
Are you to give me
And when your youth and joy
Invade my soul
And fill my heart
As now they do, then

Younger than springtime am I Gayer than laughter am I Sunlight and moon beans Heaven and earth Am I with you
