

## I Was Free

Aneka

Sliding into deep depression  
Leaving such a magic time  
Away from all the world's intrusion  
To find liberation in mind  
You're just a fool and it's true  
Don't know what's going on around you  
Destroy your hope and your dreams  
Insatiablity speaks  
Support the cultural decay  
Sell and buy and betray  
Destroy your hope and your dreams  
Insatiablity speaks  
The good vibes don't last  
Intoxication has past  
Next time I want more  
Give me some more than before  
So far away from beyond and before  
In a new kind of world where it's all unsure  
Step back again and remember the time  
When your mind was free  
Weak, can feel your body suffer  
I know what makes you insecure now  
The ease of going on and abuse  
Commit a serious crime  
To make the stuff all mine  
I will get me everything  
Then I will live like a king  
You're just a fool and it's true  
Don't know what's going on around you  
Insatiablity speaks  
Too far away from beyond and before  
In a new kind of world where it's all unsure  
Step back again and remember the time  
When your mind was free
